HUMAN TRANSFORMATION THAT DRIVES COLLECTIVE IMPACT.

A regenerative leadership incubator to transform local challenges into solutions created by youth themselves.

THE CHALLENGE

The potential exists.
Opportunities must arrive.

- Psychological distress and mental health challenges
- Violence, bullying, and fragile community bonds
- Lack of belonging and clear life purpose
- Low youth participation and agency
- Complex social and environmental territorial challenges
- Deep systemic inequalities and limited opportunities

Creativity, energy, and the drive to change.

Access to trusting bonds, rigorous training, and tangible opportunities unlocks this potential into community action.

OUR THEORY OF CHANGE

Stronger territories start with stronger people.

01

Integral Human Development

Self-awareness, physical & mental health, and the skills required to act.

02

Leadership & Youth Agency

Empowered, connected youth capable of mobilizing peers and community.

03

Collective Action & Impact Projects

Concrete solutions created for the real challenges of the community.

04

Territorial Regeneration

Social and ecological impact that strengthens our shared collective future.

- Transformation starts inside each young person and spreads across the territory.

THE SOLUTION

Integral development to cultivate changemakers.

A social technology for adolescent development.

We integrate physical health, emotional well-being, life skills, and purpose with the creation of lasting solutions for the community.

- Human development and holistic health
- Socio-emotional competencies and active citizenship
- Critical, systemic, and creative thinking
- Youth agency and authentic leadership
- Real projects addressing territorial challenges
- Social, environmental, and community regeneration

Proprietary methodology, flexible and adaptable to diverse territorial contexts.

A 44-WEEK JOURNEY

Five steps to transform.

From self-awareness to action in the territory.

1
AWAKEN
Who am I?

Self-awareness, identity, purpose, and holistic health.

2
BELONG
Where do I belong?

Territory, bonds, community, empathy, and citizenship.

3
IMAGINE
What needs to change?

Creativity, territorial diagnosis, and social innovation.

4
BUILD
How do I make it happen?

Planning, prototyping, teamwork, and leadership.

5
REGENERATE
How do we regenerate?

Implementation, impact assessment, celebration, and scaling up.

ECOSYSTEM ACCESS

Multiple entry points.
One territory to transform.

01

Social Projects

Community initiatives and local NGOs already active on the ground.

02

Civil Society (CSOs)

Established organizations fostering human rights and local causes.

03

Community Associations

Neighborhood leaders and resident associations with grassroots trust.

04

Youth Collectives

Cultural groups, sports teams, art, and youth initiatives.

05

Schools & Educators

Public and community education networks seeking student agency.

06

Public Spaces

Parks, libraries, sports centers, and community hubs.

- The youth is the starting point. The territory is the space for transformation.

COLLABORATIVE NETWORK

People, knowledge, and resources connected for change.

Youth

Protagonists of their own development and creators of territorial solutions.

Families & Communities

Roots of support, belonging, participation, and essential local knowledge.

Social Projects & CSOs

Entry gateways, mobilization anchors, and grassroots community networks.

Companies & Suppliers

Social investment, goods, services, infrastructure, mentorship, and career pathways.

Organizations & Experts

Technical training, pedagogical guidance, and specialized support networks.

Public Sector

Public policies, institutional support, public equipment, and coordinated effort.

ACTION IN THE TERRITORY

Transformation takes shape in youth-led projects.

01 • IDENTIFY A CHALLENGE

Community Listening & Territorial Diagnosis

Listening to neighbors, mapping assets, and identifying systemic territorial issues.

02 • CREATE & TEST A SOLUTION

Creativity, Planning & Prototyping

Design thinking, feasibility analysis, collaborative teamwork, and early testing.

03 • IMPLEMENT & MULTIPLY

Collective Action, Evaluation & Scaling

Hands-on field execution, impact measurement, celebration, and long-term legacy.

CHANGE PROJECTS

A real challenge.
A youth-created solution.

Hands-on learning, collaborative problem solving, and concrete action that transforms the territory.

Mentors, technical specialists, and partner organizations guide each initiative throughout the journey.

PILOT IMPLEMENTATION

The first cycle puts methodology into practice.

01

Mobilize

Engaging youth and territorial partners. Conducting participatory diagnostics of the community.

02

Train & Build

Deploying methodology through weekly workshops, events, immersive experiences, and mentorship on Change Projects.

03

Implement & Learn

Projects in action on the ground. Tracking development and impact indicators, followed by learning reports.

Goal: Validate a scalable, replicable model for developing regenerative leaders.

JOIN US

Your organization can be part of this.

Different ways to contribute to bring the first cycle to life and expand opportunities for youth.

01

Financial Investment

Direct sponsorship and resources for implementation of the 44-week cycle.

02

Institutional Sponsorship

Brand alignment with youth empowerment, education, health, and sustainability.

03

Technical Mentorship

Specialists and corporate teams sharing knowledge, training, and guidance.

04

In-Kind & Facilities

Materials, equipment, spaces, and services supporting youth activities.

05

Network & Advocacy

Expanding outreach, opening corporate doors, and connecting youth to opportunities.

MEASURABLE OUTCOMES

Tracking development.
Learning from impact.

In Youth

- Self-awareness & identity
- Mental health & well-being
- Socio-emotional skills
- Sense of belonging
- Youth agency & leadership

In Projects

- Local challenges addressed
- Prototyped solutions
- Implemented initiatives
- Lessons learned & documented

In Territories

- Community members engaged
- Strengthened alliances
- Continuity potential
- Social & ecological impact

In Society

- Regenerative leadership pipelines
- Culture of civic participation
- Cohesive communities
- Sustainable, just futures

Data-driven iteration: Field outcomes and evaluations continuously guide the evolution of the model.

COME BUILD THE FIRST CYCLE OF IRON FOR CHANGE.

Together, we shape young changemakers.
Together, we transform territories.

Let's discuss how your organization can participate:
